Dear Partners

Paul Gee – Certification Dispute

I refer to your letter of 13 January 2005, received by the Plumbers, Gasfitters and Drainlayers Board ("the Board") on 17 January 2005, concerning the above matter and in particular, your client's information privacy request.

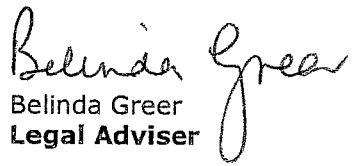

First, please find **enclosed** copies of previous correspondence between the Board and Mr Gee regarding the certification issue, as requested.

Secondly, I can confirm that there appear to be approximately 89 completed gas certification certificates between the period 5 June 2003 and 27 November 2003 completed by Mr Gee as the certifier and held on his personal file of returned gasfitting certification certificates. These include certification number 273489 which Mr Gee told the Registrar was not his work on 10 January 2005. The name Greg Williams appears on that certificate as the registered gasfitter carrying out the gasfitting work (copy **enclosed**) dated 5 June 2003.

I have now checked batch certificates numbers 299741-299780 issued by the Board under Mr Gee's name on 17 November 2003, payment being made on 15 November 2003. All the certificates have been completed and returned to the Board except Certificate No 299760. Four certificates have been certified by Mr Gee, namely: 299763, 299776, 299777 and 299788 (copies **enclosed**). The remaining certificates have all been completed correctly and signed by the certifier, namely Mr J Darnley, and 2 certificates certified by Mr P Hill. Some of the certificates have Mr Gee's name entered as the registered gasfitter carrying out the gasfitting installation(s). You may wish to have copies of all those certification certificates in which Mr Gee is named, as the installer. Please let me know if this is the case.

I trust this helps clarify the issues upon which you have been instructed.

Yours sincerely

Belinda Greer
